Soft Cloth Adhesive Wound  
Dressing on Laminectomy

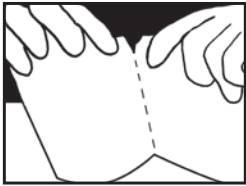

3M™ Medipore™ Dress It Pre Cut  
Dressing Cover with Gauze for  
Compression over Chest Tube Site

**3M**

## Application Tips

### For smooth, easy tearing of 3M™ Medipore™ H Tape

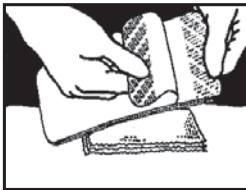

1. Unroll slightly beyond the desired length.

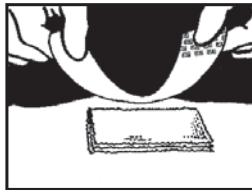

2. Slightly bend the rolled-out segment of tape to identify the perforation lines which are spaced every 2 inches along the entire roll.

3. Grasp the top edge of the tape closest to the perforation line, and **quickly** “tear” the tape apart.

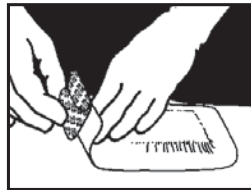

### For easy application of 3M™ Medipore™ Dress-It Pre-Cut Dressing Cover

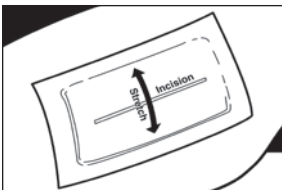

1. Hold the tabbed end as you peel one dressing cover from the pad.

2. Lay the dressing cover over the gauze or area you are covering.

3. Remove the paper tab and secure tape by rubbing or pressing into place.

*3M™ Medipore™ H Soft Cloth Surgical Tapes stretch in the cross-direction and on the bias. The direction of the stretch should be considered when securing a dressing or tubing to an area that is at high risk for distention, edema, hematoma formation, or movement.*

## Ordering Information

### 3M™ Medipore™ H Soft Cloth Surgical Tape

Catalog No.	NDC/NHRC No.	Size (in × yd / cm × m)	Rolls/Box	Boxes/Case	HCPCS Code*
2861	8333-2861-01	1 × 10 / 2,5 × 9,1	24	1	A4452
