

3M™ Coban™ 2 Layer Compression System

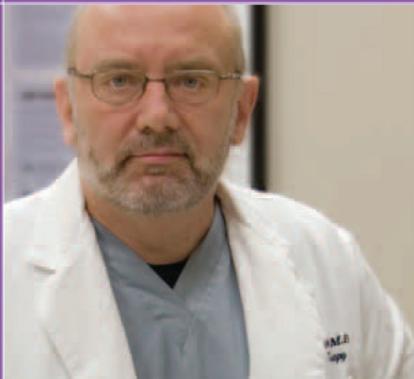

“I’ve definitely  
noticed a difference

in patient compliance and wear time.”

**3M**

“Coban 2 Layer  
[Compression System]  
is different from any other  
compression system I’ve used in my practice.”

My patients love it because the first foam layer sticks to the skin, allowing the second layer to stay put so there is no slippage. I don’t think you can invent anything better than this two-layer system.”

— **Andrzej Stypko, M.D.**, Hopkins County Memorial Hospital, Sulphur Springs, TX

Dr. Stypko is just one of the many healthcare professionals who have switched to 3M™ Coban™ 2 Layer Compression System because it's:

- **Comfortable:** Thin, lightweight design allows patients to wear normal shoes.
- **Effective:** Delivers sustained compression and less slippage than other leading compression wraps.\*
- **Versatile:** For all types, sizes and shapes of patients with ABI  $\geq$  0.8.
- **Easy to Use:** Applied in two easy steps, which reduces training time.

\* Clinical data on file at 3M.
