On Implant Abutments ++ ++ ++ ++ Highly recommended\* + Recommended - Not indicated

÷

+

\* Either better performance for this indication or easier handling with equal performance.

Note: The cement selection recommendations in this guide list the key indications for a particular cement, and are intended as a general guide only. 3M RelyX cements are highly versatile products that can be used for multiple indications. Your selection is dependent on individual patient circumstances and your preferred procedural techniques.

Depending on the indication, 3M<sup>™</sup> RelyX<sup>™</sup> Universal Resin Cement can be used as a self-adhesive resin cement or as an adhesive resin cement when combined with 3M<sup>™</sup> Scotchbond<sup>™</sup> Universal Plus Adhesive. Please refer to 3M<sup>™</sup> RelyX<sup>™</sup> Universal Resin Cement instructions for use for details.
