

Dermatac™
Drape

The value of easier
dressing changes

Economic benefits of 3M™ Dermatac™ Drape in the operating room (OR)

Hypothetical model assumptions

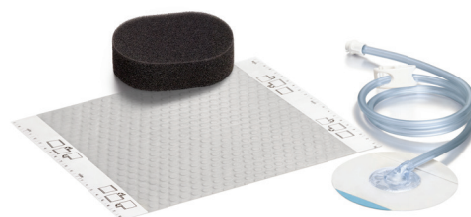

- OR costs range from \$22 to \$133 per minute, depending on the complexity of the procedure, with a average of \$62 per minute.¹
- In a bench study, Dermatac Drape took 1/3 less time to apply compared to traditional dressings.²
- NPWT dressing changes are performed in the OR 22% of the time based on survey responses from 24 healthcare professionals conducted at the end of a limited commercial launch in the U.S. between April 2019 to May 2019.³
- A 33% reduction in application time may result in net savings based on less or time.⁴

Hypothetical model with 100 dressing changes	3M™ V.A.C.® Drape	3M™ Dermatac™ Drape
Dressings applied in the OR	22	22
Dressings applied at bedside	78	78
Total	100	100
Average time to apply (in minutes)	18.00	12.06
Cost/OR per minute	\$62	\$62
Incremental time savings per placement	\$24,552	\$16,450

Incremental savings for OR placements \$8,102

Incremental spend for ALL dressing changes
(OR + bedside) with new Drape (difference in ASP) \$1,304

Net incremental savings per 100 dressing changes **\$6,798**

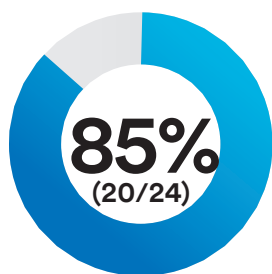

Patient comfort with 3M™ Dermatac™ Drape

In a survey of 80 patients with 153 dressing changes, patients were asked how Dermatac Drape felt at removal as well as comfort related to wear.⁵

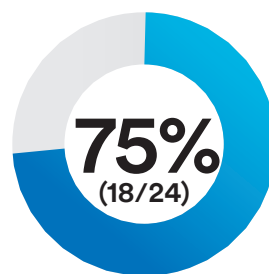

A majority of patients stated they experienced **little to no pain** during dressing removal and **90% (72/80)** said **Dermatac Drape was comfortable to wear.**

In a survey conducted at the end of a limited commercial launch with 24 healthcare professionals:

Of clinicians said
3M™ Dermatac™ Drape:

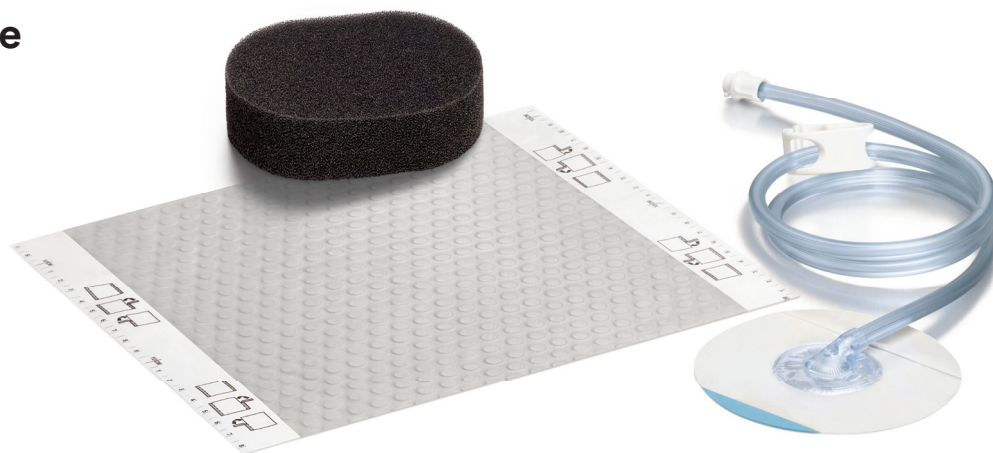

- Was easy to use
- Handled great due to repositionability
- Was fast to apply and remove

Of clinicians said with
3M™ Dermatac™ Drape
there was:

- **Less** drape needed at dressing changes
- **Less** need to window pane
- **No** need for ancillary products

3M™ Dermatac™ Drape

Order	SKU	Ordering information
