

Filtek™

Restoratives Dispenser

Shouldn't a tool you use every day be more comfortable?

No matter which member of the Filtek™ family of products you're using, they can all be dispensed with the same device. That's why we've designed the 3M™ Filtek™ Restoratives Dispenser with improvements that can make your restorative delivery easier, more comfortable and secure.

Designed for warming

3M™ Filtek™ Restoratives Dispenser was designed with no metal parts, and can be used with compatible warming devices, with heating up to 70°C/158°F, for up to 1 hour.

3M has validated the following composites can be safely warmed: Capsules—3M™ Filtek™ Supreme Ultra Universal Restorative, 3M™ Filtek™ Universal Restorative; Syringes—3M™ Filtek™ Supreme Ultra Flowable Restorative, 3M™ Filtek™ One Bulk Fill Restorative, 3M™ Filtek™ Bulk Fill Flowable Restorative.

Secure capsule

Stop worrying about the capsule shifting or falling out during use, thanks to a snap-in feature.

Easy to load

You can load the rotatable capsule holder at any angle.

Simple cleaning

You can clean it manually or with a washer-disinfector. It was safely tested for 200 cycles using high-level sterilization and disinfection.

Extra comfort

Less straining on your hand, thanks to its easy-pull trigger and ergonomic design. It also reduces the force needed for extrusion.
