

Littmann®
Stethoscopes

Hear more. Know more.

Quality makes a difference when you're learning the skill of auscultation to help you assess and monitor patients. Start with a 3M™ Littmann® Stethoscope for professional level acoustics. It's built to last and trusted by professionals worldwide.

The high acoustic sensitivity of 3M™ Littmann® Stethoscopes can help you learn to assess and monitor patients effectively today, which will help you become a better clinician tomorrow.

With soft-sealing eartips, adjustable headsets and a non-chill rim, these stethoscopes are comfortable for you and your patients. Whether you're examining adult or pediatric patients, the dual-sided chestpiece (with open or closed bell) features tunable diaphragms, so you can hear different frequency sounds without repositioning it. Choose the model right for you, each made in the USA with globally sourced materials and not made with natural rubber latex.

3M™ Littmann® Cardiology IV™ Stethoscope

Helps isolate subtle sounds so you can hear changes in your patients in the most critical and challenging environments.

3M™ Littmann® Classic III™ Stethoscope

Compact and sensitive, perfect for assessing and monitoring in non-critical environments.

3M™ Littmann® Classic III™ Stethoscope
