

Scotchbond™ Universal Adhesive

Indication

- Protective varnish for glass ionomer fillings

1

2

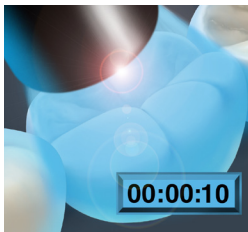

- Apply the adhesive to the prepared tooth and rub it in for 20 seconds.

3

- Gently air dry the adhesive for approximately 5 seconds to evaporate the solvent.

Scotchbond™ Universal Adhesive

- Light cure for 10 seconds.

4

- Adjust the occlusion and reapply adhesive to the ground places to protect the filling from drying out.

5

- Use a damp cloth or cotton pellet to remove the oxygen inhibition layer.
