Extended release ...  
because staying in  
contact matters.

## 3M™ Vanish™ 5% Sodium Fluoride White Varnish

The  
#1-selling  
varnish  
in the U.S.

**Most patients don't know the benefit of keeping a fluoride varnish in contact with their teeth longer.**

Studies show the longer a fluoride varnish stays in contact with the teeth, the more effective it is.\* That's why 3M formulated Vanish White Varnish to stay on the teeth longer for more effective protection.

**Advanced protection—durable, long-lasting coating**

**Releases more fluoride after 4 hours than other leading varnishes, continuously releasing up to 24 hours**

Contains 22,600 ppm fluoride and tri-calcium phosphate. Minerals found in saliva for building strong teeth.

Vanish White Varnish deposits strong, acid-resistant mineral on tooth surfaces—including dentin tubules—to relieve hypersensitivity.

### Summary of advantages

- Extended fluoride release—22,600 ppm sodium fluoride
- Contains calcium, phosphate and xylitol
- Easy to apply, no drying needed
- Can be applied to tooth surfaces where plaque is present
- Fast, horizontal sweep application
- Unique applicator for back-of-glove dispensing
- Does not change the appearance of ceramic or metal orthodontic brackets
- Relieves hypersensitivity
- Over 10 years of clinical success

### High fluoride uptake, even after acid attack.

Vanish White Varnish

Test results show the high fluoride uptake during a 24-hour treatment of Vanish White Varnish is virtually unaffected by acid challenge.

# It's the varnish that won't leave their teeth when they leave your chair.

Dispense Vanish White Varnish onto a mixing surface. For easy application, squeeze it onto the gloved hand like a painter's palette, so you can efficiently deliver varnish to the patient.

Simply swipe 3M™ Vanish™ 5% Sodium Fluoride White Varnish across tooth surfaces and let the formula do the rest.

- No need to dry the teeth—sets in the presence of saliva
- No rinsing—the patient may eat and drink immediately after application
- Saliva-tolerant—spreads to help coat even more tooth surfaces, releasing fluoride, calcium and phosphate for up to 24 hours

Apply Vanish White Varnish evenly in a thin layer over treatment area(s) with sweeping, horizontal brush strokes. No suction required.

## Ordering Information

Item #	Product Information
	<b>3M™ Vanish™ 5% Sodium Fluoride White Varnish—50 Pack</b> Each 50 Pack includes: 50 unit-dose packets (0.5ml each) of one flavor and applicator brushes in individual foil pouches
12149C	Cherry Flavor
12149L	Melon Flavor
12149M	Mint Flavor
	<b>3M™ Vanish™ 5% Sodium Fluoride White Varnish—100 Pack</b> Each 100 Pack includes: 100 unit-dose packets (0.5ml each) of one flavor; 100 applicator brushes
12150C	Cherry Flavor
12150L	Melon Flavor
12150M	Mint Flavor
	<b>3M™ Vanish™ 5% Sodium Fluoride White Varnish—Bulk Pack</b> Each Bulk Pack includes: 10 boxes of one flavor. Each box includes: 100 unit-dose packets (0.5ml each); 100 applicator brushes
12151C	Cherry Flavor
12151L	Melon Flavor
12151M	Mint Flavor
12151CL	<b>3M™ Vanish™ 5% Sodium Fluoride White Varnish Bulk Pack—Cherry &amp; Melon Flavors</b> Includes: 10 boxes (5 Cherry, 5 Melon). Each box includes: 100 unit-dose packets (0.5ml each); 100 applicator brushes
12151X	<b>3M™ Vanish™ 5% Sodium Fluoride White Varnish Bulk Pack—Assorted Flavors</b> Includes: 10 boxes (4 Cherry, 4 Melon, 2 Mint). Each box includes: 100 unit-dose packets (0.5ml each); 100 applicator brushes
