

3M™ V.A.C.® Therapy

Designed for mobile patients

3M™ ActiV.A.C.™ Therapy System

Now including the first-ever
3M™ V.A.C.® Therapy Dressing
with up to 7-days of wear time!

The 3M™ ActiV.A.C.™ Therapy Unit is a portable negative pressure wound therapy device designed for the mobile patient

The features of this ergonomically designed therapy unit include:

For the patient

- Lightweight. Weighs only 1.08Kg
- Small size with a low profile that can be worn close to the body
- Easy-to-use, single-touch therapy on/off operation
- Alarm notifications that are easy to recognize and correct
- Easy, quick release 300ml canister
- 14-hour battery for activities of daily living

For the clinician

3M™ SensaT.R.A.C.™ technology

Only 3M™ V.A.C.® Therapy Systems provide patented SensaT.R.A.C. Technology, a real time pressure feedback system.

- Adjusts pump output to the wound site, compensating for wound distance, wound position, exudate characteristics, and patient movement
- Delivers and maintains programmed negative pressure to support optimal healing outcomes

3M™ Seal Check™ Feature

Designed to help clinicians and patients identify and troubleshoot negative pressure leaks.

- Instant Feedback. Audio and visual cues are delivered in real-time, allowing easy location of dressing leaks
- Enhanced Therapy Confidence. A proper seal helps maintain programmed therapy to support optimal wound healing
- Possible Reduction of Unscheduled Visits. Easier for clinicians to help troubleshoot problems over the phone

Settings guide

Recommended therapy settings and pressure ranges are pre-programmed for indicated wound types:

- Easy Set Up. With pre-programmed settings by wound type, clinicians can initiate therapy quickly and efficiently
- Ease of Use. Intuitive control functions make it easier to use, especially for clinicians who are not as familiar with V.A.C.® Therapy

Therapy history reporting

Document Patient Compliance with V.A.C.® Therapy.

- Monitors therapy usage, settings, durations, and dressing and canister changes to help verify patients are receiving the prescribed course of therapy
- USB port for convenient data downloads

Simplified touch screen

Enhanced, simplified control functions:

- Easy Navigation. With full-color interface with intuitive touch screen controls
- Simplified Patient Mode. Designed to be easy to use and understand

3M™ V.A.C.® Dressing options with 3M™ SensaT.R.A.C.™ Technology

Specially designed dressings, because no two wounds are alike.

3M™ V.A.C.® Peel and Place Dressing Kit

All-in-one design makes application easy

- The perforated, non-adherent layer allows for extended wear time up to 7-days¹ and fewer dressing changes
- Patented, all-in-one dressing allows for easy, time-saving application with less training
- The simple, versatile design of V.A.C.® Peel and Place Dressing is compatible with multiple 3M™ V.A.C.® Therapy Units

3M™ V.A.C.® Granufoam Silver™ Dressings

More than just a silver dressing

- Combines the benefits of V.A.C.® Therapy and silver in one dressing, with no need for adjunct silver layers
- Specifically designed for use with V.A.C.® Therapy Systems

3M™ V.A.C.® Granufoam™ Dressings

Advanced wound dressings to assist granulation tissue formation and enhance exudate removal

- Can be easily trimmed to fit the contours of deep or irregularly shaped wounds
- Can be customized for bridging techniques when treating multiple wounds

3M™ SensaT.R.A.C.™ Pad

Only SensaT.R.A.C.™ Technology actively measures, monitors, and manages the accurate delivery of the physician's prescribed therapy to the wound site

- Designed with patient comfort in mind
- Flexible pad material for easy application over body contours
- Discreet, low profile design

3M™ V.A.C.® Granufoam™ Bridge Dressings

Ideal for use with wounds in pressure sensitive areas that requiring bridging

- Preassembled components specifically designed to simplify dressing application
- Integrated bridge allows for SensaT.R.A.C. Pad placement away from the wound site
- Wicking layers help ensure intact skin stays dry
- Allows V.A.C.® Therapy to be used in conjunction with off-loading therapies

3M™ V.A.C.® Simplace™ Dressings

Designed to simplify the V.A.C.® Dressing placement process

- Helps to create an environment that promotes healing by facilitating granulation tissue formation
- Fewer steps, easier and faster application
- Spiral cut foam is simple to size; no scissors necessary
- Design allows for easier bridging

3M™ V.A.C. Whitefoam™ Dressings

Comfortable and versatile wound dressings

- May be used over split thickness skin grafts
- Helps bolster flaps and grafts
- Higher tensile strength (than V.A.C.® Granufoam™ Dressing) allows for easy removal from tunnels and undermining
- Recommended in situations where hypergranulation responses are likely
