

## Solventum™ CDI Onboarding Services

- Structured and role-based training: Tailored based on knowledge assessments to ensure clinical documentation specialists (CDSs) receive the right level of training
- Expert-led education and support: Onsite training, case reviews and remote coaching drive knowledge retention and skill application
- Sustainable clinical documentation integrity (CDI) program growth: Ongoing mentorship and quality feedback help organizations build a strong, compliant and high-performing CDI team

### Gaining necessary knowledge

A well-trained CDI team ensures accurate documentation, appropriate reimbursement and high-quality patient outcomes. Solventum CDI Onboarding Services provides structured training to help equip new staff or sharpen current CDSs with the knowledge and skills needed to excel. Through a combination of assessments, targeted education and ongoing support, we help organizations strengthen CDI staff expertise and improve performance.

## The challenge: Training and retraining staff

CDI programs are being asked to do more with less, and CDI success is more crucial than ever for healthcare organizations. Much of the success of a CDI program depends on well-trained staff, but many healthcare organizations struggle with knowledge gaps, inconsistent training and turnover. New hires are still building their foundational skills while existing staff may require retraining due to process changes or evolving CDI standards. Without training and education programs, organizations risk lost financial opportunities, compliance issues and inefficient CDI workflows.

## The solution: Custom education for all levels of experience

Solventum CDI Onboarding Services provides a comprehensive, structured training program to ensure staff competency and confidence. New and existing CDSs undergo a pre-skills assessment to determine their training needs, followed by a customized approach and onboarding experience.

## Training includes:

- Expert-led instruction and shadowing for hands-on learning
- Targeted education on key major diagnostic categories (MDCs)
- Remote support and case reviews to reinforce learning and ensure success
- Quality bootcamp access for advanced CDI skill development

By leveraging proven methodologies and expert coaching, we help organizations develop a confident, highly skilled CDI team that drives quality and financial performance.
