

The key to keeping a perfect smile? Retention, clearly.

Retainers hold teeth in their desired position following orthodontic treatment. Your doctor will advise you on a wear schedule for your Clarity Retainer to best preserve the beautiful results of your orthodontic treatment.

“

“Clarity Retainers [are] extremely comfortable... My patients are thrilled with the lightweight feel.”

– Dr. David Pechersky,
Pechersky Orthodontics

“The straight trimline on Clarity [Retainers] is far more comfortable than a scalloped trimline. The straight trimline... improves the patient experience significantly.”

– Dr. Marc Geissberger,
Geissberger, DDS

”

CLARITY™ RETAINERS

**You earned that
beautiful smile —
retainers keep it
straight**

Keep your smile straight

Clarity™ Retainers are clear and nearly invisible

The straight trimline makes them less noticeable, more comfortable and more esthetic, and the material resists scratching and staining.

Highly
durable

Easy to
insert and
remove

Fit well

Comfortable
upon initial
seating

Custom fit
to you

Excellent stain
resistance to
red wine
and coffee
