3M™ Clinpro™ Clear
Fluoride Treatment

Fluoride. Simplified.

Introducing the
next generation in
fluoride treatment.

3M™ Clinpro™ Clear
Fluoride Treatment

Your patients deserve more.

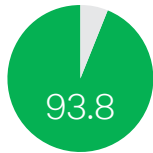

In a clinical study, patients and professionals preferred 3M™ Clinpro™ Clear Fluoride Treatment over tray gel fluoride and rosin-based varnish treatment.

Patient ratings:

Appearance
on teeth

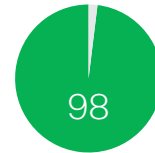

Patients rated 3M™ Clinpro™ Clear Fluoride Treatment **96.3 out of 100** in **appearance on their teeth**.

Smooth and slick
mouthfeel

93.8% of patients judged Clinpro Clear Fluoride Treatment to have a **smooth and slick mouthfeel**.

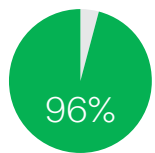

Hygienist ratings:

Perception of
patient experience

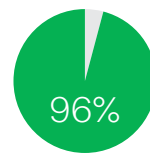

Hygienists rated their patients' **perception of their experience** with Clinpro Clear Fluoride Treatment **98 out of 100**.

One hour after treatment:

Feel

96% of patients couldn't feel Clinpro Clear Fluoride Treatment on their teeth, compared to 8% for Colgate® PreviDent® 5% Sodium Fluoride Varnish.

Taste

96% of patients couldn't taste Clinpro Clear Fluoride Treatment, compared to 67% for Colgate® PreviDent® 5% Sodium Fluoride Varnish.

Fast and easy application.

The unique L-Pop delivery system provides an improved professional experience as well.

- The mean ease of application score for Clinpro Clear Fluoride Treatment was 97.2 out of 100
- In a US clinical study, 100% of evaluating hygienists said that most dental professionals would learn to use Clinpro Clear Fluoride Treatment quickly.

Just press...
and go.

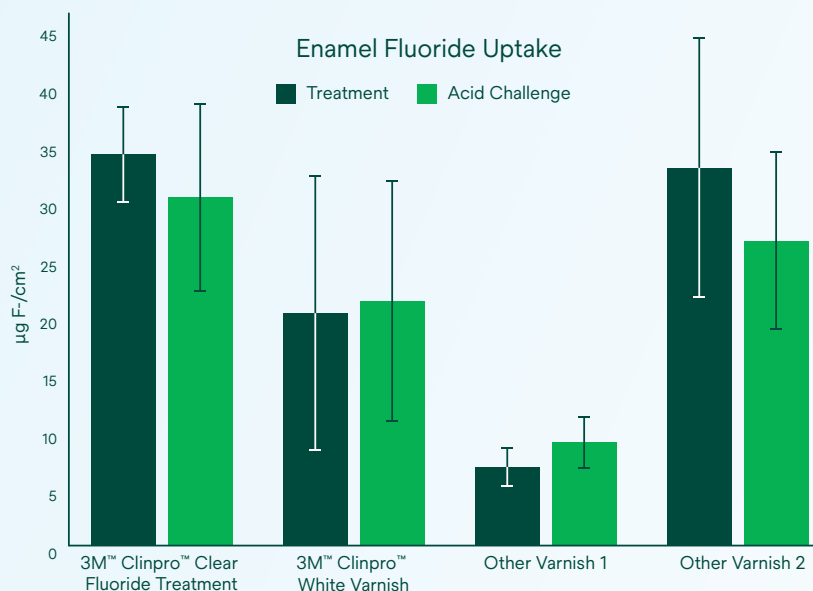

A fluoride treatment that does more with less.

Based on patient and professional feedback, we've reimagined the traditional fluoride treatment. 3M™ Clinpro™ Clear Fluoride Treatment has a new water-based formula that's ready to apply and enables effective fluoride uptake. With less time waiting to eat or drink after treatment, Clinpro Clear Fluoride Treatment makes it easy for your patients to say "yes."

-  Clear, water-based formula in a fast and easy L-Pop unit dose
-  Formula is free of rosin and common allergens* with a neutral pH
-  Stabilised calcium phosphate
-  Minimum contact time of just 15 minutes
-  Improved taste, smell, and mouthfeel
-  Suction-line friendly formula

*See allergen disclosure at go.Solventum.com/ClinproClear.au

With soluble fluoride ions immediately available to deposit on the tooth, 3M™ Clinpro™ Clear Fluoride Treatment is a 2.1% sodium fluoride solution that provides similar fluoride uptake as a traditional 5% varnish.

After treatment and after acid challenge, the enamel fluoride uptake (EFU) of 3M™ Clinpro™ Clear Fluoride Treatment is statistically not different from products tested.
