Stethoscopes

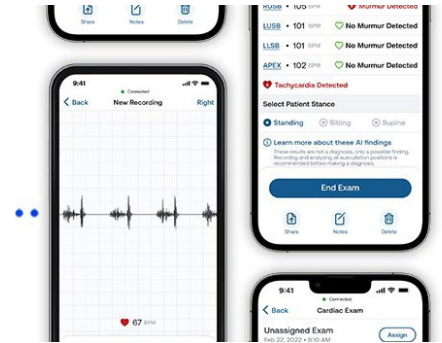

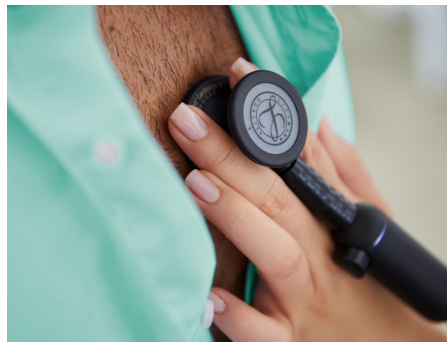

## A new class of clarity

## Littmann® CORE Digital Stethoscope

Our most advanced stethoscope yet, the Littmann® CORE digital stethoscope features the outstanding acoustics, comfort, and quality of a Littmann® Cardiology Grade Stethoscope, enhanced by powerful digital technology with up to 40x amplification (at peak frequency, versus analog mode), active noise cancellation and mobile sound wave visualization.

### Available in four unique finishes

### Active noise cancellation

Our active noise cancellation technology helps reduce background noise from even in noisy clinical settings, allowing you to focus solely on your patient's vital body sounds.

### Multiple listening modes

With one button, toggle between cardiology-grade analog and amplified modes effortlessly. Featuring two tunable diaphragms for adult and pediatric use, no repositioning is needed to capture high and low frequency sounds.

### Visualization and AI analysis

Pair the Littmann® CORE Digital Stethoscope with the Eko App for unparalleled screening capabilities. Features on the Eko App include the ability to see, record, share, and analyze sounds. Subscription may be required.

Details	
<b>Acoustic performance</b>	10+ (1-10 scale)
<b>Chestpiece design/Technology</b>	Machined stainless steel, two-sided
<b>Headset material</b>	Lightweight aluminum alloy
<b>Length/Total weight</b>	27"/69 cm/200+ grams
<b>Diaphragm details/Diameter</b>	Two, single-piece tunable diaphragms 1.7"/4,3 cm, 1.4"/3,4 cm
<b>Warranty</b>	1-3 years

# Take listening to a whole new level

## Capture<sup>‡</sup>

Save and annotate 15, 30, 60 or 120-second recordings in the secure dashboard.

## Analyze<sup>‡</sup>

Create a library of heart sounds to monitor the progression of a disease or for education.

## Share<sup>‡</sup>

Securely share recordings with colleagues.

## Discover new details with digital

Connects to Eko software, allowing you to visualize heart sound waveforms in real time. Plus, use AI to aid in the detection of heart murmurs. (Some features require a subscription)

## Designed for comfort

With an angled headset that aligns for a proper fit with your ear canals and a chestpiece you can hold the way you want to, the Littmann<sup>®</sup> CORE Digital Stethoscope was designed for comfort during patient assessments.

### Comfort, confidence

Snap tight, soft sealing eartips conform to ears for an excellent acoustic seal and comfortable fit.

### Hear more – way more

Up to 40x amplification\* and active noise cancellation to reduce background noise.

### Hear it the way you want to

Discover new details with digital. Quickly toggle between analog and amplified listening modes – and use the tunable diaphragms on both sides of the double-sided chestpiece to hear high and low frequency sounds.
