

3M™ Coban™ NL Non-Latex Self-Adherent Wrap

Designed to adhere to itself, not skin.

Comfortable and versatile hold.

Give patients the protection they deserve with Coban NL Wraps. Unlike tape and some other wraps, Coban NL Wraps adhere to themselves without adhesive or clips. They're also available in individually packaged single-use rolls to help reduce the risk of cross-contamination.*

Reliable hold

Maintains compression and is an excellent choice when you don't want to stick to skin.

Skin performance

Delivers the securement power you need while minimizing damage to skin.

Easy to use

Can be torn by hand and is easily adjusted during application.

Helps reduce risk

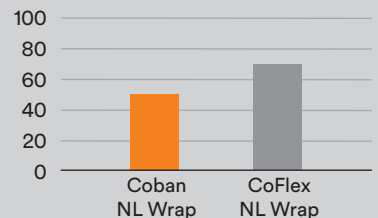

Individually packaged single-use rolls can help protect patients by reducing the risk of cross-contamination.*

**Gentle hold.
Minimal skin irritation.**

27% less irritating

Coban NL Wrap is 27% less irritating to skin than CoFlex NL Wrap.¹

24-hour self-assessment of irritation

Scale:
0 = less irritation to 100 = more irritation

*Individually packaged, single-use rolls help prevent wrap from being exposed to environmental contaminants, minimize contact with surfaces and equipment, and minimize exposure to healthcare worker hands.

3M™ Coban™ NL Non-Latex Self-Adherent Wrap

Clinical Application: Non-adhesive Securement

- Blood draws
- Dressings
- Immobilization
- Secondary securement for difficult to dress areas (head, fingers, toes)
- Supports and provides mild compression for soft tissue injuries (i.e. strains, sprains)*

Suitable for all patients, including those with fragile and at-risk skin.

Wrap material: Nonwoven, elastic

Skin performance:
The feather designates products that deliver the securement power you need while minimizing damage to skin.
