

# A better way to bond.

## 3M™ Digital Bonding

### Custom. Seamless. Flexible.

3M Digital Bonding combines the power of customized treatment planning within 3M™ Oral Care Portal.

- Complete your treatment plans for both aligners and digital bonding in a single intuitive platform.
- Work efficiently with a tray system that accurately bonds a full arch of brackets—all at once.
- Choose metal or ceramic brackets, aligners, or combine appliances to fit your patients' needs.

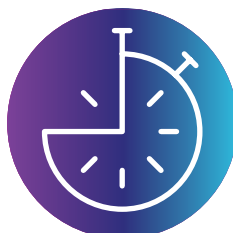

# 100%

of surveyed doctors agree the 3M Digital Bonding system **shortens bonding appointments.\***

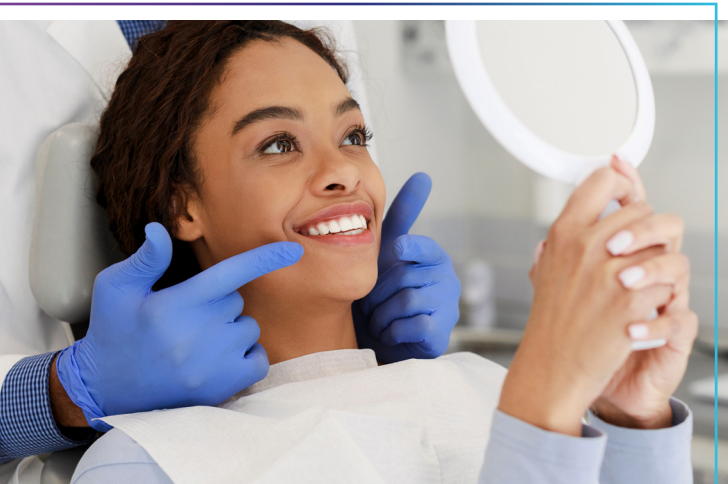

# 93%

of surveyed doctors say 3M Digital Bonding is a **superior bonding solution.\***

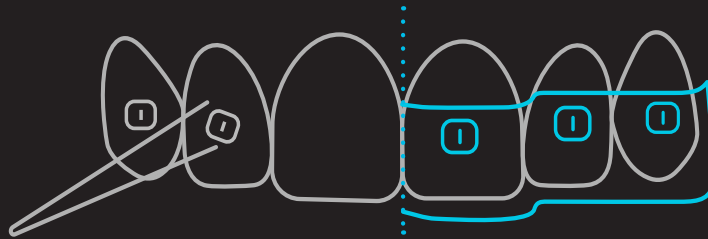

3M Digital Bonding provides a

# 30% reduction in procedure times.\*

## Common Bonding Challenges:

## State-of-the-Art Solutions:

Difficulty in treatment planning and getting accurate placement.

Save time with precise analysis and digitally enhanced bracket positioning.

Variable process with multiple steps in bonding and bonding one by one.

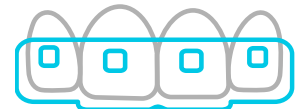

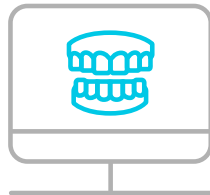

Fewer bonding steps and simultaneous bonding of up to a full arch of brackets.

Flash cleanup adds time and difficulty.

3M™ APC™ Flash-Free Adhesive eliminates the need for adhesive flash clean-up.

## An efficient and easy digital workflow that delivers custom treatment plans designed by you.

1. Create your ideal treatment plan in the 3M™ Oral Care Portal.
2. A tray customized for your patient is delivered in 10 days or less.
3. The tray delivers brackets to the teeth with ease, precision, and accuracy.

## The digital-first system benefits you, your practice and your patients:

Streamlined, shorter appointments

Selecting the right appliance for each case

More flexibility and control of the outcome

Intuitive software and integrated treatment planning

Give your patients the experience they deserve
