

# Transform member data into actionable knowledge

With the continued focus on value-based care and alternative payment models, healthcare payers need access to data that you can use to help improve quality and efficiency, reduce unnecessary costs and improve outcomes for individuals and communities.

Solventum's payment transformation and quality portfolio provides outcome-based approaches to paying hospitals, facilities and providers. Our tools fit within your current ecosystem to help identify patient safety opportunities and quality defects that not only adversely impact members but also represent avoidable costs.

## How classification tools can drive value for payers

**Payment:** Modernize your payment methodology to support precision, safety and outcomes

- Inpatient: [Solventum™ All Patient Refined Diagnosis Related Groups \(APR DRGs\) Classification System](#)
- Outpatient: [Solventum™ Enhanced Ambulatory Patient Groups \(EAPGs\) Classification System](#)
- Emergency department (ED): [Solventum™ Potentially Preventable Emergency Department Visits \(PPVs\) Classification System](#)

**Risk adjustment:** Precisely adjust payment with tools that encompass current codes and social needs

- Inpatient: [Solventum™ Potentially Preventable Complications \(PPCs\) Classification System](#)
- Outpatient: [Solventum™ Ambulatory Potentially Preventable Complications \(AM-PPCs\) Classification System](#)
- Maternal health: [Solventum™ Severe Maternal Morbidity Classification System](#)

**Population health:** Promote population health by reducing adverse events and improving patient safety

- Total burden of illness: [Solventum™ Patient-focused Episodes \(PFEs\) Classification System](#)
- Medically complex individuals: [Solventum™ Clinical Risk Groups \(CRGs\) Classification System](#)
- Care coordination: [Solventum™ Potentially Preventable Readmissions \(PPRs\) Classification System](#)
- Total population: [Solventum™ Population-focused Preventables \(PFPs\) Classification System](#)

## Analytics and outcomes reporting

### Manage results on your own

With [Solventum™ Grouper Plus Content Services \(GPCS\)](#), access cloud-based grouping, reimbursement, editing and pay-for-outcomes classifications – all integrated within your current workflows.

### Results delivered to you

[Solventum™ Data-to-Action \(DTA\) Solution](#) delivers enriched content within your existing tools and workflows. [Solventum™ Informed Analytics Platform](#) delivers enriched content on a powerful platform that enables quick and easy sharing of actionable data insights.

### Rely on expertise

The [Solventum™ Methodology Content Services \(MCS\)](#) team helps you get the most out of your analytics tools and bridges the gap between technical installation and practical application of methodologies.

# Quality and efficiency outcomes achieved by customers

51%

reduction in potentially preventable complications with Solventum PPCs<sup>1</sup>

\$70 million

saved and 20% reduction in potentially preventable readmissions by using Solventum PPRs<sup>2</sup>

37%

potentially preventable ED visits found by utilizing Solventum PFPs<sup>3</sup>

## What customers have to say

*“Every person who’s ever spoken with a provider on the payer side has heard that our members are sicker than everyone else’s, and before we were licensing the Solventum tool, we couldn’t really counter that argument. But now we have the ability to so we’re able to have much more actionable and reasonable conversations with providers.”*

– Rick Kresinske, director of reporting and data analysis, Empire Blue Cross Blue Shield

*“Egyptian Health Department needs to focus our limited resources on the sickest patients. Solventum CRGs identified many more severe patients we didn’t know about. We would rate Solventum CRGs as 10 out of 10, without question.”*

– Teresa Pickering, chief information officer, Egyptian Health Department
