

# Our Performance at a Glance

## 1. Our promise to create beautiful tile responsibly.

**100%**  
of our manufactured tile  
collections contain **recycled  
materials**.

Annually, we **recover and reuse** over

**98%**  
of all **process wastewater** generated in our  
manufacturing plants to make our products.  
These measures conserve over

**200 million**  
gallons of water per year.

On average, our facilities  
recover and reuse over

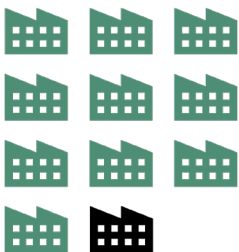

**385 million**  
pounds of **recycled and/or  
reclaimed material** per year.

We have contributed over

**49 million**  
pounds of materials to **state-approved**  
beneficial reuse programs, averaging  
**12 million pounds** each year.

10 of our 11 manufacturing plants are  
**zero-discharge** facilities, **recovering and reusing**

**100%**  
of their process wastewater.

We've **reduced our overall  
energy consumption** by

**6%**  
across our sales service centers and  
distribution facilities since 2021.

We've recycled over

**3 million**  
pounds of **cardboard and office  
paper**, averaging **750 thousand  
pounds** per year.

All manufacturing statistics are based on full year data collected beginning in 2021 and only include products made in the following plants: Dickson, TN (2 plants); Fayette, AL; Florence, AL; Gettysburg, PA; Muskogee, OK; Dallas, TX; El Paso, TX; Sunnyvale, TX; Monterrey, MX; and Salamanca, MX

"At Dal-Tile, our mission is to craft beautiful tile responsibly, every single day. We bring sustainability to life through our products and responsible manufacturing processes. As dedicated stewards of our global impact, we leverage resources to shrink our environmental footprint, reduce waste, and help build a more sustainable future for our industry."

**Matt Kahny**  
President of Dal-Tile, LLC

## 2. PRODUCT DONATION FOR PUBLIC ART UNITY TUNNEL | AUSTIN, TX

Dal-Tile proudly donated all tile products for the Unity Tunnel, a transformative public art installation along the Longhorn Dam Bridge in East Austin. Commissioned by the City of Austin's Art in Public Places Program, the project celebrates the community's culture, history, and natural environment through vibrant design inspired by local flora, fauna, and the Colorado River. The Unity Tunnel demonstrates how thoughtful design and community partnerships can create meaningful public spaces that inspire connection and belonging.

## 3. WORKFORCE DEVELOPMENT

At Dal-Tile, we are committed to investing in our people through ongoing learning and professional development opportunities. From our LeadHER, mentorship, and RISE programs to many other employee development initiatives, we equip our teams with the training, leadership resources, and career growth opportunities they need to strengthen their skills, foster innovation, and build long-term success.
