- PRODUCT FEATURE:**
1. Panoramic Porcelain Surfaces™ Belmont Terrace Matte
  2. Panoramic Porcelain Surfaces™ Obsidian Matte
  3. Nominee™ Grey 2CM Paver

**PROJECT NAME:**

LONG BAR & TERRACE

**JOB LOCATION:**

Boston, Massachusetts

## A SKY-HIGH MASTERPIECE: DALTILE'S STUNNING ROOFTOP PATIO

Soaring 400 feet above Boston's prestigious Back Bay, the iconic Raffles Hotel stands as a beacon of luxury. But the true showstopper? A breathtaking rooftop patio that redefines outdoor elegance.

This extraordinary space was brought to life by the innovation and craftsmanship of the Daltile team. In a first-of-its-kind design, our experts meticulously water jet-cut two colors of Panoramic Porcelain Surfaces™, Belmont Terrace and Obsidian, then mesh mounted the pieces into a striking custom pattern. This intricate design was seamlessly adhered to our U.S.A made Nominee™ Grey 2CM paver, creating a flawless tile-on-tile masterpiece.

A project of this caliber demands recognition, and it delivered—winning the Commercial Porcelain Design Award at the Hardscape North America show in October 2024.

# LONG BAR & TERRACE

TILE & SURFACES

Originally, the client envisioned natural marble for this outdoor retreat. However, understanding Boston's harsh winters and the risks of freeze-thaw cycles, our team recommended a more durable and weather-friendly solution.

For added stability, Nominee™ 2CM paver was securely bonded to the custom porcelain mosaic and installed on top of a raised pedestal system. Known for their exceptional strength and performance, our porcelain pavers outperform traditional concrete or cement options—offering superior durability, low maintenance, and a wide range of elegant design possibilities.

Daltile's porcelain slabs are built for commercial durability, resisting scratches, stains, and inclement weather. Their non-porous surface ensures easy cleaning, while their toughness withstands harsh weather, including Boston's cold winters and warm summers. With this in mind, it was an easy decision to select Panoramic Porcelain Surfaces™ as the beautiful top layer of this amazing floor.
