PRODUCT FEATURE:

1. ONE Quartz Surfaces® Arabescato Mountain
2. 2. Panoramic Porcelain Surfaces™ Statuario
3. 3. Panoramic Porcelain Surfaces™ Calacatta

PROJECT NAME:

ST. JUDE DREAM HOME

JOB LOCATION:

Southlake, TX

DESIGN FIRM:

Semmelmann Interiors

ST. JUDE DREAM HOME: DESIGN WITH PURPOSE

Some projects go beyond the work itself.

The St. Jude Dream Home Showplace Community in Carillon Parc, Southlake, Texas, is one of them—a collaboration between builders, designers, and suppliers united by craft and cause.

In partnership with WillowTree Custom Homes and Semmelmann Interiors, we helped bring the concept of Château in Bloom to life: a vision rooted in the elegance of a French château interpreted through a modern sensibility, where every surface was selected with intention and every detail designed to give back.

In the kitchen and main living spaces, Calacatta CM04 from our Elemental Selection series of Panoramic Porcelain Surfaces™ establishes the home's design tone from the moment you enter.

Applied across the kitchen countertops, backsplash, and fireplace feature wall, this large-format porcelain slab brings the soft, natural movement of calacatta marble to each surface in a way that feels cohesive and refined. Its delicate veining and warm white coloring complement the home's palette of soft neutrals and organic tones, creating continuity across the kitchen and into the living area.

The fireplace application is particularly striking. Extending the material vertically transforms an architectural moment into a defining feature, grounding the room with materials that have a "quiet elegance," as stated by Semmelmann Interiors.

They noted that partnering with Daltile, "allowed us to support the architectural details, custom elements, and overall softness of the home in a way that feels balanced and intentional."

Throughout the bathrooms and laundry room, Statuario CM03 from our Elemental Selection series of Panoramic Porcelain Surfaces™ carries the home's commitment to refined, light-filled surfaces into its most functional spaces.

The glossy finish reflects light beautifully, enhancing the airy, serene quality central to the Château in Bloom vision. Its luminous grey veining adds visual depth while remaining within the home's soft, natural palette. Applied across bathroom and laundry room countertops, it elevates everyday spaces into something that feels considered and complete.

In the primary bathroom and walk-in closet, Arabescato Mountain OQ71 from our ONE Quartz Surfaces® Marble Look series brings understated luxury to the home's most intimate spaces.

Its polished finish and flowing pattern introduce warmth and movement, while the engineered consistency of quartz ensures a surface that performs as beautifully as it looks. Together with the porcelain slab selections used throughout, it completes a material story that feels cohesive and deeply livable, carrying a unified design language from the most public spaces to the most personal.

When design is rooted in purpose, every surface tells a story.

The St. Jude Dream Home Showplace Community is a reminder of what becomes possible when the industry moves with shared intention. As Brad Bruno, Daltile Stone Center Manager #214, reflected, "So many people came together to make it happen. Everyone involved made a decision to give back in some way... Definitely something worth being a part of." From bathroom countertops to fireplace surrounds, the surfaces throughout Château in Bloom prove that you don't have to choose between beauty, performance, and meaning.
