FROM NATURE CHIC – **TO CITY SLEEK**

WITH THE ONE QUARTZ SURFACES® ASSORTMENT, WE'VE BROUGHT TOGETHER THE BEAUTY OF QUARTZ AND MODERN TECHNOLOGY TO CREATE NEW AND EXCITING POSSIBILITIES. ONE QUARTZ SURFACES GIVES YOU MORE DESIGN CHOICES FOR YOUR NEXT PROJECT. THE LOW MAINTENANCE AND DURABILITY OF ONE QUARTZ SURFACES COUNTERTOPS MAKE IT PERFECT FOR ANY APPLICATION, COMMERCIAL OR RESIDENTIAL. FUNCTIONAL YET CHIC, THAT'S WHAT ONE QUARTZ SURFACES IS ALL ABOUT.

AVAILABLE IN:

Marble Look, Stone Look, Concrete Look, and Monochromatic Look for endless design possibilities.

MARBLE LOOK

DAZZLE IN DESIGN WITH CHARMING DETAILS WHICH EMBODY THE LUXURY OF THE FINEST MARBLE.

Create drama with striking vein patterns, or infuse tranquility with subtle marbling. This look allows you to create elegant styles with outstanding durability.

Made in the USA with imported material.

STONE LOOK

ENJOY THE OPULENT BEAUTY OF STONE WITH THE BENEFITS OF EXTRAORDINARY ENDURANCE.

From travertine and limestone visuals, the many color choices are versatile for any design. Increase the style in your space with a majestic stone look.

Made in the USA with imported material.

THREE COLORS FEATURING

VIATECH™ TECHNOLOGY

ViaTech enables the creation of highly-realistic and complex full-body vein patterns and colors. Its advanced technology can more authentically reproduce natural stone's organic and unique patterns and colorways to better emulate the look of natural stone with all the low-maintenance and durability benefits that quartz offers.

APPLICATIONS

	Target DCOF wet	Suitable
Dry & Level – Interior Floor	N/A	
Wet & Level – Interior Floor	≥ 0.42	
Shower Floors (Residential or Light Commercial)	≥ 0.42	
Shower Floors - Linear Drain	≥ 0.42 (Mosaic) ≥ 0.60 (Floor)	
Exterior Floor Applications (including pool decking & other wet areas with minimal footwear)	≥ 0.60	
Ramps & Inclines	≥ 0.65	
Walls/Backsplashes	N/A	✓
Countertops	N/A	✓
Pool Linings	N/A	

ONE Quartz Surfaces do not meet minimum coefficient of friction thresholds recommended by safety standard-setting organizations. Water, oil, grease, etc., create slippery conditions. Floor applications with exposure to these conditions require extra caution in product selection.

Quartz not suitable for exterior applications due to small resin content. The sun will etch the material.

VIATECH™

ViaTech™ enables highly-realistic and complex full-body vein patterns and colors to better emulate natural stone.

VIVIDVEIN™

VividVein™ uses advanced digital print technology to create highly realistic veining patterns and rich visual detail.

SLAB PERFORMANCE CHARACTERISTICS

	Test Method	Average Result*
Abrasion Wear Index	ASTM C501	≥ 135
Bulk Specific Gravity	ASTM C97	≤ 2.5 kg / cubic meter
Chemical Resistance	ASTM C650	Resistant to typical household cleaners
Coefficient of Thermal Expansion	ASTM C531	≤ $4.0 \cdot 10^{-5}$ °C^{-1}
Flexural Strength	ASTM C880	≥ 35 MPa
Water Absorption	ASTM C97	≤ 0.10%
Scratch Resistance (Mohs Hardness)	ASTM C1895	≥ 5
Stain Resistance	ANSI Z124.6	Pass
Thermal Shock Resistance	ASTM C484	Pass – No Effect

* Custom testing results by color are available upon request.

NOTES

ONE Quartz Surfaces products are nonporous, reducing the potential for bacteria growth, resist common food stains and are stronger than natural granite.

ONE Quartz Surfaces products are virtually maintenance free.

ONE Quartz Surfaces products contain natural quartz stone providing consistent color and visual movement. A wide range of color options allow for more design freedom.

ONE Quartz Surfaces products have a durable, scratch-resistant surface.

ONE Quartz Surfaces products are heat and scorch-resistant under normal cooking conditions (use of a trivet is recommended for longer or extreme heat exposure).

Twenty-Five year commercial limited warranty.
Visit daltile.com/countertops-product-category/one-quartz or details.

Lifetime Residential Limited Warranty.

WARNING: This product can expose you to chemicals known to the State of California to cause cancer, including crystalline Silica (airborne particles of respirable size) in dust created if the product is dry cut/ground/polished or pulverized during fabrication/installation/removal. For more information, go to www.P65Warnings.ca.gov.

For information refer to "Factors to Consider" at daltile.com/Factors.

DIMENSIONAL STONE

QUARTZ TAKES ON A WHOLE NEW DIMENSION

The professionals of our Dimensional Team will utilize their expertise to source both import and domestic cut to size projects and ship them directly to your jobsite.

FORGET ONE-SIZE-FITS-ALL.

Or shape, for that matter. Our Dimensional program offers procurement, fabrication, and delivery for any project-all executed to your specifications.

Our team will help you identify exactly what you need to bring your vision to reality. Acting as a dedicated project manager, they'll walk you through every step, from inception to completion. Ask about our quantity survey, shop drawing and cutting ticket services!

LEAVE YOUR LIMITS BEHIND.

In addition to our standard product offering, we can also match most any color pallet. The experts at Daltile won't hesitate to make sure your project takes shape with complete coordination and precision.

STEP-BY-STEP

CUSTOM CUT TO YOUR SPECS. ON YOUR TERMS.

- We provide a digital take-off to identify the project scope, which includes materials, size, quantity, and edge treatment.
- You'll receive samples and pricing - we'll also provide support during the bid process to help determine the right material for the right location.
- Then you'll review CAD-generated shop tickets for confirmation that your goals are achieved.
- Now, your stone can be fabricated, delivered on time, within sequence, and ready to install.
- Each project is reviewed by an independent Daltile inspector. They ensure that color, size, calibration, and packaging meets your requirements prior to shipment.

LET US HANDLE ALL THE DETAILS

Contact your local Daltile Architectural Representative, Sales Representative or visit daltile.com to get started.

TECHNICAL SPECIFICATION

Quartz is one of nature's hardest minerals. Our surfaces are composed of 90% quartz, and are therefore designed to last. In a unique Daltile process, we take the innate strength of quartz and combine it with numerous polymers and dashes of pigments. The result: A range of durable and beautiful quartz surfaces in a wide variety of colors and finishes.

FREQUENTLY ASKED
QUESTIONS

WHAT IS ONE QUARTZ MADE OF?

Quartz countertops are engineered stone surfaces made from quartz crystals mixed with resins and pigments. They are non-porous, durable, and resistant to stains and scratches. Quartz countertops also come in a wide variety of colors and patterns, making them a versatile choice.

HOW DURABLE IS IT?

Engineered quartz is highly durable and resistant to scratches, chips, and cracks. It is composed of natural quartz crystals mixed with resins and pigments, resulting in a hard and resilient surface that can withstand everyday use and abuse in the kitchen.

DOES IT STAIN EASILY?

Engineered quartz is non-porous, meaning it does not absorb liquids or harbor bacteria. This makes it highly resistant to staining and prevents the growth of mold, mildew, and bacteria. It is easy to clean and maintain, requiring only mild soap and water.

IF I ORDER MULTIPLE PIECES OF SLAB WILL THE COLOR MATCH AND GIVE ME A SEAMLESS DESIGN?

Engineered quartz is manufactured, allowing for consistency in color and pattern throughout the slab. This makes it easier to match and ensures a uniform appearance across larger countertop surfaces.

CAN I GET A NATURAL STONE LOOK WITH QUARTZ?

Engineered quartz is available in a wide variety of colors, patterns, and finishes, including options that mimic the appearance of natural stone. This versatility allows homeowners to find a quartz countertop that suits their design preferences and complements their overall aesthetic.

DO I NEED TO TAKE SPECIAL PRECAUTIONS WHEN COOKING ON/NEAR QUARTZ?

Engineered quartz is heat-resistant, meaning it can withstand moderate exposure to heat without being damaged or discolored. However, it is always recommended to use trivets or hot pads when placing hot pots and pans directly on the surface to avoid potential thermal shock.

HOW DO I TAKE CARE OF QUARTZ?

Engineered quartz requires minimal maintenance. Unlike natural stones like granite or marble, quartz countertops do not require sealing as they are already non-porous. Regular cleaning with mild soap and water is sufficient to keep them looking their best.

DOES QUARTZ CHIP OR BREAK?

Engineered quartz is engineered to be strong and impact resistant. It is less prone to chipping or cracking compared to natural stones, making it a reliable choice for high-traffic areas and households with children or pets.

IS QUARTZ EASY TO CLEAN AND SANITIZE?

The non-porous surface of engineered quartz makes it hygienic and resistant to bacteria growth. It is a safe and sanitary option for food preparation areas, as it does not allow liquids or bacteria to penetrate the surface.

IS QUARTZ SUSTAINABILE?

Some manufacturers offer engineered quartz products with recycled content, reducing the environmental impact and promoting sustainability.
