

# Copilot Readiness Service

As AI becomes a core driver of productivity and innovation, Microsoft 365 Copilot offers a transformational opportunity for organisations ready to embrace AI.

But partners face critical challenges that can block successful adoption:

- **Unclear readiness** – Limited visibility into whether customer environments are technically and operationally prepared for Copilot.
- **Security and compliance risks** – Uncertainty around data access, sharing policies, and identity configurations.
- **Pressure to deliver fast value** – High customer expectations for immediate ROI, with little room for missteps.

## TD SYNEX Microsoft Copilot Readiness Powered by AvePoint. Delivered by TD SYNEX

TD SYNEX Microsoft Copilot Readiness is a professional service designed to help organisations safely and effectively adopt Microsoft Copilot by assessing their Microsoft 365 environment for **security, governance, and readiness**.

A readiness assessment of your customer’s Microsoft 365 tenant(s) to identify risks, exposure, and security gaps before enabling Copilot.

Adopting Microsoft 365 Copilot quickly can give your organisation a competitive edge. But without proper preparation, you risk falling behind, and exposing sensitive data if environments aren’t set up correctly. We’re here to help you build confidence in AI and unlock its potential for your organisation.

### Challenges

- Prevent data oversharing
- Identify sensitive data
- Review SharePoint permissions
- Establish access review policies

### Outcomes

Comprehensive data management posture report, including:

- Workspace overview
- Data security posture management
- Copilot readiness analysis
- Data protection

## Why Leading Partners Start with Readiness

- **Accelerate time-to-value:** Launch Copilot faster with confidence using a proven readiness framework.
- **Differentiate your offer:** Stand out with a structured, security-first approach to AI adoption.
- **Build trust:** Become a strategic advisor by proactively addressing readiness, risk, and ROI.
- **Drive recurring services:** Unlock ongoing opportunities in governance, optimisation, and AI enablement.

- **Boost customer confidence:** Ensure environments are secure, compliant, and Copilot-ready.
- **Speed up adoption:** Remove blockers with a clear, prioritised remediation plan.
- **Deliver better outcomes:** Help customers unlock the full value of Microsoft 365 Copilot.
- **Reduce risk:** Avoid costly missteps by addressing security and governance from day one.

And now that you’re Copilot-ready – empower your teams with TD SYNEX Academy’s Copilot Learner Journey and hands-on CCE labs. Reach out to [academy.microsoft@tdsynnex.com](mailto:academy.microsoft@tdsynnex.com) and get 15% discount.
