Easy to buy, simple to sell:

TD SYNNEX AWS Migration Success Packages

Contact us

aws PARTNER Premier Tier Services

- Migration Services Competency
- Amazon EC2 for Windows Server Delivery

TD SYNNEX, an AWS Premier Partner with Migration competency and SDP for Windows workloads, has built a comprehensive path to support migrations into the AWS Cloud. This includes:

Partner Maturity Assessment

TD SYNNEX works with you, discussing your strategy, gaining insights on your abilities and priorities, and discovering any gaps or areas for improvement.

Cloud Practice Builder

TD SYNNEX has developed a Digital self-paced enablement programme plus workshops for you to begin to create your own AWS Practice, including specifics around cloud migrations.

Migration Success Packages

Need additional expertise or support with customer migrations? Do not worry! TD SYNNEX has built Migration Success Packages to fill in the gaps and provide you and your end customers with end-to-end cloud migrations.

Partner Success Support

TD SYNNEX is your trusted partner providing you with ongoing workshops including specific workload training, change management and adoption success to continue your learning journey.

Do you want to take advantage of TD SYNNEX's cloud migration experience?

1 **Step one:**
Take advantage of our cost and risk-free migration evaluation.

2 **Step two:**
Meet TD SYNNEX experts to review your migration evaluation results.

3 **Step three:**
Do you lack experience? Don't worry! Build your Migration Success Package!*

If your customer wishes to migrate and you need support, choose option one, two, or all three TD SYNNEX Migration Success Packages:

Option 1:
We can design and execute the migration for you and your customers.

Option 2:
We can manage workloads on behalf of your customers, after migration is complete.

Option 3:
We can support optimisation evaluations and executions.

*Packaged pricing based on # of virtual machines.

TD SYNNEX. Your partner in migration success!
