

# StreamOne<sup>®</sup>

## API Integrations

Connect the best data to  
the best tools and systems.

StreamOne® features a comprehensive, self-service suite of **Application Programming Interface** (API) designed to transform the way you manage billing, commerce, and order management

processes. Tailored for businesses of **all sizes**, these API empower you to streamline operations, **enhance** customer experiences, and **drive growth** in a dynamic digital landscape.

## Seamless data access

**Integrate StreamOne® data with your existing systems such as CRMs and ERPs.**

StreamOne® API **simplifies** and **normalizes** an extensive array of API. Leveraging these API, you can **initiate orders**, **establish** and **oversee** subscriptions, and effectively integrate customer data into any system.

### StreamOne® Billing API

Enable partners to seamlessly integrate transaction, billing and end-customer data. Reducing the risk of errors and speed up your operations by retrieving critical information through your own systems, such as:

Billing imports

Invoices

Charges and discounts

Pricebooks

Detailed billing data by vendor

Reserved Instance inventory

## Extended commerce capabilities

Transact outside of StreamOne® in a “headless” commerce model.

**StreamOne® Commerce API** enable the expansion into commerce and lifecycle management functions. These capabilities allow you to do much more than just pull data—you will be able to **extend ordering** and **full lifecycle** management for your customers to your own website or other commerce integrations. This means you can offer a **one-stop-shop** for your customers, where they can place orders, manage their services, and get real-time updates, all within your own marketplace.

### This suite of API includes:

Access/Authentication

Customers

Catalog

Checkout and Cart

Reports

Orders

Subscriptions

Provisioning

Order references

If you do not currently have a marketplace, **StreamOne® offers White Label Storefronts**, extending the power of StreamOne® automation to your customers.

Whether you are transacting through your own marketplace or leveraging StreamOne® White Label Storefronts, our capabilities provide the flexibility to easily extend your reach. Get closer to your customers by allowing them **self-service access** to explore, configure and manage products, as well as understand their invoices with detailed billing information.

## How StreamOne® is better

1

Quality  
of API

2

Breadth  
of API

3

Normalization  
of complexity

## Getting Started
