ON REAL-TIME DATA SYNC

[Billing] is live, so as something changes in Azure, the **billing changes are reflected** through to ConnectWise. So, you can pretty much bill whenever you want, and you'll be accurate.

ON STREAMONE® OVERALL

I think StreamOne® ticks every box I can think of as far as being easy to use. I always used to need to be quite heavily involved in ordering, and it's been **easy to train** a few of our support staff. I don't really have to touch it at all now, so it's provided a lot of **efficiency** that we haven't had before.

ON STREAMONE® PSA CONNECTORS

The [PSA] integration we've been helping test, it's going to be a big change for our operations. We've had three different suppliers, and it leaves all the rest of them for dead. It's a **really nice, sleek integration** that is very easy to use, and works, which is important.
